## ONTARIO STREET PAVEMENT STARTED

Engineer C. H. Bromley was not long getting the work of paving Ontario street under way once the council issued the orders for the job to be done. On Monday levels of the road were taken and on Tuesday morning men and teams started to work taking out the earth preparatory to laying the foundation for the road. The road will be cut down in spots from six to twelve inches. This dirt will be hauled to the Lake street hollow and used as a fill to cut down the grades of the hills on that street. The new pavement will be sixteen feet wide and will be curbed on the sides with cement gutters for drainage. The road will run from the G. T. R. tracks north to Lake street and when finished will be equal to any street in any town in the district.

## GET OUT THE PAINT POT AND BRUSHES

We know that every resident in town wants to have the Old Burg looking spick and span when the Old Boys and Girls come home in August. Many of the residents have done a lot of work on their lawns and gardens this spring in order to have them in fine shape when the "Old Timers" arrive. Others have used the paint brush to good advantage and the town we see houses that have been painted up, but there are still a lot of them that should be painted, get out the paint pot and brushes. Saturday afternoon and after supper job, and then see how much better the more valuable it will be, besides the elements. Get busy, folks, and paint arrives.

## HIGHWAY CLOSED TO TRAFFIC

Travellers going west on the highway by motor car or other vehicle will have to go up the Grimsby mountain and along the ridge road as far as the Cline mountain at least for the next two weeks. The stretch of highway between Kerman avenue and the A. F. Hawke farm is completely closed to traffic and has been since yesterday morning.

The rock bottom for this road was put in last fall, and this spring more bottom has been put in. During the past ten days tons of crushed stone have been hauled onto the road and dumped in a long windrow in the centre. On Tuesday the road was blocked up and the work of spreading the stone commenced. On top of this stone goes a heavy coating of tarvia and then more stone. It will be two weeks at the earliest before the road will be open.

Residents in this section were notified last week of the closing and consequently laid in a supply of ice and other products that would have to be teamed to tide them over the close-up. There is no other way to make a detour around this road except up the Grimsby mountain and the mountains west of Hawke's farm.

## RHUBARB SHIPPED TO WINNIPEG

Great success has been met with by The Niagara Peninsula Growers, Limited, in their initial shipment of produce. Over eight thousand baskets of asparagus were distributed and all at good prices. The product was packed in compact, attractive manner that was bound to attract attention and sold for better prices than ever before. Each bunch was carefully graded and bound with two elastic bands and then the bunches were solidly packed in eleven quart baskets. The goods shipped by the company brought seventy-five per cent more money on the open market than that shipped by independent growers, and moreover was more evenly distributed, thus doing away with any chance of a glutted market.

Rhubarb was also sold in large quantities at good prices. Two carloads of rhubarb were shipped to Winnipeg, where it arrived in excellent condition and was marketed at top prices.

The officers of the company are now getting settled with their staff in the new offices in the Village Inn Annex. Telephone connections have been completed and private telegraph wires from both the G. N. W. and C. P. R. lines will be installed.

## AMERICANS WANT SMALL FRUITS

Pres. T. J. Mahony, of Niagara District Grape Growers, reports that overtures have been made to his company by an American firm for a supply of Niagara District strawberries and pears. There is a scarcity of both these fruits in the eastern states and the company that has contracted to handle the Grape Growers Company to ship of Uncle Sam this fall also want the Grape Growers Company to ship them strawberries and pears. Mr. Mahony has turned the request over to Sales Manager Carpenter, of the Niagara Peninsula Growers, Limited, and no doubt there will be considerable of these two fruits shipped across the line.

Baskets for the grape growers are now arriving daily at the different stations along the G. T. R. and there will be a plentiful supply to meet the growers' wants this season. These baskets are twelve quart size, made purposely to meet the United States standard and are manufactured at Port Hope.

Grape prices this fall will be good, in fact better than last year from all indications. The Canadian trade will be well looked after by the Niagara Peninsula Company, who have a working agreement to this effect with the Grape Growers Company, but the bulk of the crop will no doubt go across the line again, as the crop in the eastern states has been practically ruined by the early frosts.

Every member of the Grape Growers Company is more than satisfied with the results obtained last year and have all signed new contracts for the company to handle their crop again this season. Many new members have also been added to the company, which in itself speaks volumes for the good that the company and its officers did for the grower.

## "SHORT BOX" WILL BE PROHIBITED

The law regarding the use of the "short" or pint box for the shipment of strawberries, passed last year by the Dominion Government, will be strictly enforced this season, according to the following despatch:

Ottawa, May 30.—The Government showed itself unfriendly to-day to the request that strawberry growers be allowed to use this year the "short box" instead of the one set by law. The short box does not contain as much as the standard.

J. A. C. Ethier (Laval and Two Mountains) maintained that many berries would go to waste for lack of boxes if the Government persisted that the standard box had to be used. Col. Currie (North Simcoe) backed him up, as did Hon. R. Lemieux.

Hon. S. F. Tolmie, Minister of Agriculture, could see no necessity, however, to relax this year. The law had been relaxed last year, and surely by this time the growers knew what was required.

There was no definite action decided upon, but the chances for "short boxes" do not look rosy.

In conversation with the INDEPENDENT, Manager Mahony, of The Niagara Peninsula Growers, Limited, stated that this "short" box had been used but very little in the Niagara District, but was used almost entirely by the growers in British Columbia. This box has a false bottom in it, and it is claimed for it that this false bottom allows a better circulation of air, thus helping to preserve the fruit better in shipment. Any of the boxes of this type used in this district have been purely for experimental purposes in long distance shipping.

## LAND TAX LAW

We want to draw the attention of the public to a law passed at the recent session of the legislature which is of special interest to everybody who deals in real estate, and to the lawyers and conveyancers who draw the deeds of transfer.

The title of the new law is "The Land Transfer Tax Act," and its purpose is to provide another source of revenue for the provincial treasury by imposing a tax on the transfer of land.

The pith of the act is found in the sections quoted below, viz.:

1. A tax of one-fifth of one per centum upon the amount of the purchase price shall be paid by the party registering same upon every transfer, conveyance, deed, instrument, or writing, whereby any land tenements or other realty shall be granted, assigned, transferred or otherwise conveyed to or vested in the purchaser or purchasers, or in any other person or persons by his, her or their direction.

2. Such tax shall be collected by the registrar, before he registers such transfer, and any registrar shall be entitled to retain to his own use two per centum of the monies collected by him under section 2 hereof.

3. The registrar shall within the first week of each month send to the treasurer of Ontario a statement of the amount collected during the previous month, and shall pay over the amount thereof less the percentage provided for in the act.

It will be noticed that the tax is not to be computed upon the amount named in the transfer as the consideration, which is only a nominal sum, but on the actual purchase price as sworn to by the purchaser in a special affidavit which section 6 requires him to make and file with the registrar, and that the tax must be paid before the deed is registered.

The act does not apply to any transfer where an agreement for sale of land has already been registered.

The act comes into force to-day, June 1st.

## THE "REUNION" CAMP

Training camp will be held this year at Old Niagara from the 17th to the 25th of June. It was not originally intended to do any training this year, but the authorities decided to hold a short camp as a reorganizing reunion.

Before the late war the militia, but rather inclined to ridicule the militia, it is to be hoped that the immortal glory of the First Division at the second battle of Ypres will ever remain a lesson that the militia was worth while.

In selecting the dates for the camp, the authorities have been careful to avoid the busy season of the summer months, and to give the members of the militia a chance to get away from their regular work.

Much patriotism has been displayed in the past by employers permitting their men to go to camp for a period of training, and it is to be hoped that they will do all they can to grant facilities to their men to attend this year.

To the returned man a week under canvas and a chance to renew old friendships of those days that will be ever remembered, should prove a splendid outing; to those who were too young or were otherwise prevented from serving, the opportunity to be prepared in case of future need should not be missed, and it is to be hoped that GRIMSBY will see that her record in peace will be as splendid as in war.

In the reorganization of the militia, GRIMSBY has been allotted the following units: B Squadron, Second Dragoons, B Company, The Lincoln and Welland Regiment (98th), and the Bugle Band of the latter regiment. Although the time is short it is to be hoped that there will be a good turnout for this year's camp.

Recruits for the 98th may apply any evening from 7.30 to 8.30 to B. H. Kidd, M.C., at the G.W.V.A. Club rooms, and for the Second Dragoons to Lieut. C. L. Burdall, phone 64 or 275.

## PAYMENTS

After due deliberation the town council have decided to build the Ontario street pavements by day work and have hired C. H. Bromley to superintend the construction of it.

The council met in special session on Wednesday afternoon when they opened the three tenders received. All of the tenders were over \$13,000 and the council decided that they could get as good a job, at a cheaper price by doing the work themselves. This street will be tarvia pavement sixteen feet wide with cement curbing and gutters.

The road committee of the County Council was present at the meeting and ratified the agreement entered into between the town and county to be agent the tarvia pavement to be built on Livingston Ave., also the curb and gutter. This job will cost in the neighborhood of \$11,000 and work will be commenced on it immediately.

County Engineer Rutherford was present and stated that all the money that had been granted for work on Main street was \$5,000 and that this would not be sufficient to lay a tarvia pavement as was originally intended, but instead they intended tearing the street up and giving it a coat of stone and oil. This work will be gone ahead with in a very short time.

## PAID UP LIST

J. P. Robertson, Grimsby	May 8/22
A. J. Burdall, Grimsby	May 15/21
Philips Bros., Grimsby	Dec. 31/21
W. Jerome, Beamsville	Apr. 15/22
Jas. A. Howell, Elyria, Ohio	Apr. 15/22
Wm. B. Muir, Hartney, Man.	Dec. 31/21
Wm. 25/22	May 25/22
Jos. Foley, Beamsville	Feb. 15/22
Beamsville Pres. Co., Beamsville	Feb. 15/22
I. Southward, Grassie	May 31/22

## TRYING TO WRECK OUR BUGLE BAND

Strenuous efforts are being made by the officers-in charge of the newly organized 98th Battalion, which replaces the old 44th Regiment, to wean the members of the Boy Scouts Bugle Band away from that organization and convert them into the 98th Battalion Bugle Band. Many of the members of the band are nothing more than youngsters and are inclined to look upon the idea of going to Niagara Camp as a great big holiday, but in this they will soon be disillusioned once they hit the camp ground. By the time they put in a few days of camp grind from five o'clock in the morning until they sound the last post at ten-thirty at night, they will wish they were back again in the Boy Scouts Band. Grimsby owes the 98th Battalion nothing and expects nothing from it. Grimsby was always the best town represented in the old 44th, and never even got credit for being so. Welland and Niagara Falls have "hogged" everything in the military line for years and will continue to do so. If the new Battalion wants a band why does it not play the game and give the old 44th Band the new job of being the band of the 98th, instead of trying to sign up the Boy Scouts Bugle Band and in so doing wreck that wonderful little organization for all time to come. The older members of the band, and the real backbone of it, refuse to listen to the 98th's overtures, and are going to stick with their own band, but if half of them join the 98th Band and the other half stay where they are, it means that neither band will amount to a sackful of peanut shells and the Boy Scouts Band will be an unknown thing in a few weeks. Why does the 98th officers want to take this bugle band to camp? Because they cannot secure recruits in Grimsby for the battalion, nor can they get officers to man that company until they give Grimsby the band job. All well and good; they have done that, but what happens? Instead of taking up the old 44th band, now the Grimsby Citizens Band, they start in to try and steal the Boy Scouts Band away from the Scouts organization, which in itself is mighty small potatoes. The Boy Scouts Band have brought great honor to themselves and to their town in the short year that they have been organized, and it will be a dirty shame if they are broken up. This band has been equipped and supported by the public's money, and if they remain as they are, they will be further supported, but once they join up with the 98th they will be withdrawn forever. The Boy Scouts and the public support will be withdrawn forever. The Boy Scouts movement is not a military organization, nor does it teach military tactics, so that if the band breaks away from them and goes with the 98th to camp they are done forever so far as the Scouts are concerned. It is to be hoped that the older boys in the band who are remaining true to their organization will use their influence to keep the younger boys in and keep the band as it stands to-day. The younger boys in the band are the best and finest Boy Scouts Bugle Band in the Dominion of Canada, for it is impossible for this band to belong to two organizations, one a military one and the other a non-military one.

## COMMUNITY CHORUS PRACTICING

Practices are being held twice weekly of the school children that are members of the gigantic Community Chorus which is to perform at the Old Boys and Girls Reunion. Mr. C. H. Bromley, who is in charge of the chorus, has been very successful in getting the children to work in hand, and are doing grand work.

## SPECIAL COUNCIL MEETING

At a special meeting of North Grimsby Council held on Saturday evening last petitions were received from the residents living along the highway from the town limits east to the Clinton township line, from those living on Nelles road, and also from those living on the Park road, asking that a water main be constructed on these roads to supply the residents with water.

All the petitions were sufficiently signed as to number of residents and total assessment as required by law.

The Council will now have an engineer make an estimate of cost of construction, and after this estimate is gone over and apportioned out according to each owner's frontage, if it is satisfactory then tenders will be called for.

It is expected that this work will be gone right ahead with as soon as an arrangement can be reached between the Township Council and the Water Commission as to a supply of water and the cost of procuring it.

It is the intention of the council to supply this water to the residents at very little more than cost.

The cost of constructing the main would be borne by the sale of debentures spread over a twenty or twenty-five year period.

## ALD. HEWSON IN BAD ACCIDENT

An automobile accident which nearly terminated with fatal results happened on Barton street, back of Stoney Creek, on May 24, when Ald. Hewson, of Grimsby, struck another car broadsides, severely injuring little Billy Johns, who was in the car with him.

Mr. and Mrs. Hewson, Mrs. Durham and the little boy were in Hewson's car coming east on Barton street near Common street when another car came shooting down the sidewalk, and before Hewson could stop he had hit it broadsides. The little Johns boy was thrown through the windshield, lacerating his face and neck very badly. One wound near the jugular vein bled very profusely.

Mrs. Hewson was thrown out of the car, but outside of a bad shaking up escaped uninjured. D. E. Swayze came along and placed the little boy in his car and rushed him to Stoney Creek for medical aid.

The car which Hewson struck did not slack up speed at the corner nor sound any warning as to which way it was going to go. It was on the east side of the road going south and to all intents and purposes was going to turn west at this corner, and had it done so the accident would have been avoided, but instead it crossed the road in front of Hewson and consequently the two cars came together.

## NARROW MINDEDNESS V. BROAD MINDEDNESS

Greed, envy, hate, inordinate ambition—in short, selfishness—are at the bottom of the world wide discontent and trouble prevailing to-day.

Given a home hallowed with the associations of the past in which the joy and mirth of spring and autumn's mellow prevail—

Given a love of nature kindled in my boyhood home near Niagara's mighty roar and the azure blue of Ontario's shore—an admiration that has developed into adoration of the Creator of all.

Given the health to walk and explore the beauties of nature right here in our midst—so common as to be generally overlooked.

Given a love of art, music, the pulpit and the stage and the fond inspiration derived therefrom.

Given wholesome work to do directly and with best effort.

Given a love of the Golden Rule with firm conviction that its application would cure the ills of humanity.

All these gifts I enjoy and would not exchange to-day for the pomp and pageantry and wealth of the world. The latter perish with the body, but the former are as eternal as the soul.

I. B. MARLATT, Kansas City, Mo.

## REEVE SUTTON, OF DALHOUSIE, PASSED

(St. Catharines Standard)

William G. Sutton, reeve of Port Dalhousie, passed away at his home on the street, at 6 o'clock Saturday morning, after a long illness, which he never regained consciousness.

The news of the death of Reeve Sutton cast a deep shadow of gloom over the lakeside village, for the reeve was a man widely known with the majority of the populace, and to know him was to like him, for his genial hospitality and his generous nature made him many warm friends. Always a gentleman, the late Reeve was held in the highest esteem, not only in Port Dalhousie where he resided for the past few years, but also in St. Catharines, where he conducted various businesses.

As a member of the County Council, "Bill" Sutton, as he was known to his friends, will be greatly missed. During the past year and in 1920 he held the chairmanship of the reception committee and in that capacity served in the most efficient manner in presenting the many delegations to the county fathers. His wit and humor served to lighten the council sessions and his peace-loving nature assisted in straightening out many a committee argument.

The death of Reeve Sutton will be deeply mourned by his friends and even those who were politically his opponents, for the reeve was a staunch Liberal, will join in paying tribute to one of Port's noblemen.

The late William G. Sutton was born in Stamford township 65 years ago. He came to this city about 45 years ago and for 31 years made his home here, carrying on several business undertakings in his own name and with his brother, who since deceased.

The first business he conducted in the city was that of a grocery store, following which he carried on a hardware and a business. He later conducted a store, but was not successful in this line, and was then employed by the city as a clerk. He was a member of the St. Catharines and Port Dalhousie Association, and was a member of the Port Dalhousie and St. Catharines Association. He was a member of the St. Catharines and Port Dalhousie Association, and was a member of the Port Dalhousie and St. Catharines Association. He was a member of the St. Catharines and Port Dalhousie Association, and was a member of the Port Dalhousie and St. Catharines Association.

Phone 425 Grimsby

**FARM FOR SALE**

The homestead farm of the late Mr. William Price, composed of the east part of lot fifteen in the first concession of the Township of Louth, and broken front in front of said east part, containing about forty acres.

The property is pleasantly situated on the shore of Lake Ontario, with public road on lake front and on the side. It is one mile from good public school, one and a half miles from railway station, post office, express office and telephone office.

There are about five acres of bush, brick dwelling house, frame driving house, hard and soft water.

The land is well situated for division into smaller parcels.

Apply to MR. AARON WISMER, Jordan Station, Ont., or MR. ALBERT E. PRICE, St. Lawrence Ave., Niagara Falls, Ont., Executors, or M. A. BALL, Jordan, Ont., Solicitor for Executors.

**FACTS AND FANCIES**

By Frank Fairborn

**What's Their Idea?**

Crerar, of the Dominion House, and Drury of the Provincial House, are going to tour the Province of Ontario in June, making speeches with a view to securing the farmer's vote in the next Dominion election.

Crerar and Drury are two very decent men—but what have they to offer the farmers, or anybody else, in the way of a constructive policy for the Dominion of Canada? They are both free traders, but both of them, or either of them, are afraid to advocate such a policy.

Crerar is hoping to get into power not on his own constructive policy but on a fake and imaginative policy such as carried Drury into power.

Drury was pitchforked into power two years ago, without any policy, and he has lived up to it in a first class style ever since—placed in power by the farmers' party, he has not, in a single instance, benefited the farmers to the slightest degree.

During the regime of Drury and the U. F. O. Government, in power, every produce that the farmer has to sell has steadily gone down in price, until this week hogs on the foot are only worth Eight Dollars and Fifty Cents, in Toronto—a drop from Twenty-five Dollars per hundred of two years ago.

Butter has fallen, in some parts of Ontario from Sixty-five Cents per pound two years ago, to Twenty Cents per pound at the present time.

Eggs have gone down from Seventy-five Cents per dozen two years ago to Twenty-five Cents, and in some parts to Twenty Cents.

Per Sixty Cents per bag.

Drury, therefore, has not done for the hog, butter, egg and potato producers.

Every other farm product has fallen in price at a corresponding rate, through the whole category of wheat, hay, oats, barley, peas, beans, rye and tobacco, etc.

While Drury and Crerar were allowing the prices of farm products to drop, drop, drop, almost to one hundred per cent below cost of production; at the same time almost everything which the farmer has to buy has continued to rise in price.

A self-binder formerly worth One Hundred and Forty Dollars, is now being sold for Three Hundred and Twenty Dollars—a land roller worth Forty-two Dollars, is now One Hundred Dollars.

A mower formerly sold, on easy payments, at Fifty-five Dollars, is now selling for one hundred dollars, cash—ploughs that formerly sold for Twelve and Fourteen Dollars are now Twenty-two and Twenty-five Dollars.

Bobbeighs formerly worth Twenty-two Dollars are now commanding Seventy-five Dollars—forks and shovels, formerly to be bought at Fifty and Seventy-five Cents, are now bringing One Dollar and a Half to Three Dollars.

Hammers and all other tools have gone up Two Hundred per cent—saws have risen from One Dollar and a Half to Two Dollars, to Five and Six Dollars.

Harness, formerly bought at Thirty-five Dollars per set, is now selling for Eighty-five Dollars per set—horseshoeing which was formerly One Dollar and a Half per set, has now gone to Three and even Four Dollars per set.

Hayrakes which were formerly Ten Dollars are now Thirty Dollars—Lumber-wagons have jumped from Sixty-eight to Eighty-eight Dollars, up to One Hundred and Thirty and One Hundred and Sixty Dollars.

Hay-loaders have risen from Seven Dollars to One Hundred and Thirty-five Dollars—all kinds of harrows, corn cultivators, fruit cultivators, etc., have jumped One Hundred and Fifty per cent in price and are remaining up to that level.

Therefore, if everything a farmer has to sell has come down in price, and everything a farmer has to buy has gone up in price—the putting of a farmer's party into power has been a dismal and dead failure as far as its helping the farmer is concerned.

The fruit grower is in an equally bad pickle—Arsenate of Lead formerly worth about Ten Cents per pound is now selling for from Thirty-five to Forty Cents per pound.

Bordeaux Mixture a very important spray, has gone up three hundred per cent.

Lime-sulphur, the basis of nearly all the spraying materials, has gone up Fifty per cent—spray-machines has risen fully One Hundred per cent.

Help for grape tying and fruit picking, cultivating and spraying is as high as it ever was, even in the worst of the war years.

In view, therefore, of these conditions, how silly it is for farmers to be preached at by politicians like Drury and Crerar in an effort to make them believe that Governments can benefit them, when their own Government—elected from amongst themselves, has proven such a dismal failure.

The U. F. O. Government, at Toronto, has succeeded only in two things—first, in spending millions of dollars in botching our roads; and second, in spending hundreds of thousands of dollars in chasing run-runners, whiskey-peddlers, blind-pickers and boot-leggers; and keeping on its staff of officials, an enormous number of lazy lubbers drawing their salaries and rendering little or no service, to the State—seventy-five per cent of whom are willing to go to court and perjure themselves in order to make a show against some boot-legger, rum-runner or blind-picker.

If the Drury Government were called the Whiskey Government instead of the Farmers' Government, it would be aptly named; the whole attention of the Government is directed to the chasing of boot-leggers, rum-runners and blind-pickers.

One set of officials are busy hunting for whiskey which they can confiscate and steal from the rightful owners, and turn it over to another set of officials to be sold to the public at enormous and exorbitant prices.

Meanwhile, with the Government straining every nerve in chasing whiskey dealers, the ordinary administration of justice is allowed to trail along in a regular slough of despond, in charge of lazy, careless and inefficient officials.

Také, for instance, the officials at the jail in Woodstock, where, during the past year four men committed for sentence for serious crimes have escaped—yet not the slightest attention was paid to the matter by the Attorney General, or his Department, and after this, proof of laxness on the part of the officials of the Woodstock jail, a three-convicted murderer, gangster and gunman is allowed to walk out of the jail, without molestation, and wend his way through the country for three or four days.

All over the Province, criminals are escaping from jails, almost every week—yet the officials in the Department of the Attorney General, are as busy as cats in Muskoka running after and thither hunting for fellows who might happen to have a whiskey flask in their hip pockets, a bottle of booze in their automobile, or a case of beer in their cellar.

I would call upon Premier Drury, when he appears before an audience of farmers, to explain to them why they are paying Three Hundred and Twenty Dollars for a binder, and getting Eighteen Cents per dozen for eggs and Twenty Cents per pound for butter.

Drury would not be able to answer this question, but he could tell them that the Government was in receipt of a fine fat revenue from whiskey selling.

**PENNED AND SCISSORED**  
None so fond of secrets as those who cannot keep them.

A woman hater has something to his advantage. He is never annoyed with a breach of promise suit.

Flour prices are as sensitive as a seismograph. Bread prices rarely get rattled.

That old idea that a king can do no wrong was originated by the king, not by his wife.

Russia blamed vodka years ago, and is therefore dry. Being dry the logical conclusion is that Russia is crazy.

Think you are out of debt? Well if you consider yourself part of the Dominion Government you're not. You owe something over two billion dollars.

That new slogan, "Stop, look, listen," must have been originally intended for those contemplating matrimony.

When a girl plays a ragtime so that it sounds like a funeral march, it may be truthfully said that she is murdering the music.

War in Mexico must be a very insipid affair compared to the kind Sherman once referred to in language that has become famous.

The man who is so constituted that you would be willing to do most any kind of favor for him is the one who seems to need help the least.

It is easy to be cheerful when those around you are cheerful—so, from a selfish standpoint, it is worth while to try to make happy those you associate with.

**3,500 MEN FOR NIAGARA CAMP**

Toronto, May 26.—In the neighborhood of 3,500 men will train at Niagara Camp this summer for a period of nine days from June 17. The camp commandant will be Major General Victor Williams, C. M. G., the G. O. C. of Military District No. 2, and the camp will include the rural units of Ontario and the cavalry. The staff of the camp has not yet been chosen, with the exception of the orderly officer, the camp commandant, who is to be Major N. P. Kelly, M. C., of the Queen's Own Rifles.

The training will include bayonet fighting, Lewis gun, musketry, signalling and the tactical handling of platoons and will be based on the lessons learned from the war.

The health of the camp will be looked after by a unit of the C. A. M. C., under the command of Colonel F. S. L. Ford, C. M. G., the A. D. M. S. The Canadian Army Service Corps will send a detachment of 100 men and lieutenants under command of Lieut.-Col. J. A. Shaw, D. S. O., which will issue the rations and perform the transport services for the camp.

From July 2 to July 7, both days inclusive, the school cadets from all over this military district, to the number of between 5,000 and 6,000 will attend the camp.

**NEWEST NOTES OF SCIENCE**

Matches can be waterproofed by dipping them in melted paraffine. Tennis courts made of rubber have been invented by an Englishman.

A patent has been granted for an electrically illuminated keyhole. Of German invention is an electric flashlight contained in a watch case.

A gauge has been invented for accurately determining the amount of moisture in lumber.

A two-wheeled automobile that is balanced by a gyroscope has been invented by a Russian engineer.

One of the new gasoline farm tractors is designed to do little more than the work of a single horse.

Invincible pants, on which images of the inventor will not fade, have been invented by a Frenchman.

Pennsylvania leads the states in the use of team power, having twenty per cent of all in the United States.

Mills in England have succeeded in making twine and yarn from flax straw, generally considered a waste product.

More than 1,000 separate spiral springs are included in a novel bed mattress which is ventilated through the sides.

A tank car built in Saxony to transport living fish long distances uses an electric motor to keep its water aerated.

Ten years of experimenting were necessary to perfect the new glass utensils in which food can be both cooked and served.

Hallstones are formed by the electricity of the thunder storms they accompany, according to a German.

Policewomen in Boston are paid at the rate of \$1,200 a year.

Three women have announced their candidacy for seats in the Virginia legislature.

The United States army maintains a school for the training of young women as nurses.

One of the latest fads among the women on the Riviera is that of wearing monocles.

Five women were appointed in 1920 to the examining corps of the United States patent office.

After two years of service, the Polish women's battalion, 3,900 strong, is to be demobilized.

The Chicago Woman's Club is one of the pioneer organizations of its kind in the United States.

The recent extension of the franchise in Sweden now gives that country more women voters than men.

The total number of women workers employed in commercial undertakings in Japan is more than 130,000.

Miss Betsy Bowman of Wilmore, Ky., recently celebrated her 100th birthday in the same house in which she was born.

In Egypt it is a custom for women not to go to church for a year or more after there has been a death in the family.

France has more than 2,000,000 husbandless women, all of whom are now seeking mates in the United States and other countries.

American women accorded the privilege of appearing before the king and queen of England must appear in long skirts.

## JOIN THE SECOND DRAGOONS

Lieut. Charlie Burland has received orders to recruit men and horses for the Grimsby Troop, Fighting "B" Squadron, 2nd Dragoons, to proceed to Niagara Camp for summer training from June 17th to 25th, inclusive, and is now signing on many old members of this famous unit.

The difficulty in securing horses has caused Fighting "B" Squadron, in the reorganization of the Regiment, to be split into three recruiting areas, but the headquarters still remain at Grimsby, from which point many score of red-blooded men enlisted through this historic squadron for their overseas service; and the Grimsby Troop of the Grimsby Squadron is aiming at being THE TROOP of the camp.

More generous pay and allowances are in vogue for this year's camp, especially for men of experience, and if you are desirous of spending a portion of your vacation in a most pleasant and profitable manner, you can do no better than to communicate with Lieut. Burland at once, and attest with a real fighting outfit—and not an organization of "tin soldiers."

He can be reached by phoning 64 or 275, Grimsby.

## BOY SCOUT NEWS AND ORDERS

## PARADES

There were 73 all ranks proceeded to Hamilton on Friday morning, last, by special car to participate in the Hamilton Civic welcome to Their Excellencies the Duke and Duchess of Devonshire, on their farewell tour of the Dominion. Upon detouring at the Terminal Station, the GRIMSBY Troops marched by way of King, James and Stuart Streets to the Grand Trunk Railway Station, where six Scouts, six Cubs and the Band Troop were told off to join the Hamilton District Scouts, in the formation of a guard of honor. The GRIMSBY representatives stood separately from the Hamilton guard; and on the left of the line. When Their Excellencies the Duke and Duchess of Devonshire stepped from the train at 9.48, the GRIMSBY Band Troop in command of Assistant Scoutmaster Harry Clark gave the General Salute and Flourish, in a manner unexcelled by any amateur organization of the kind; and for this commendation of their hard work and training were highly complimented by The Governor General, District Scoutmaster J. A. M. Livingston, took command of the Guard, and met Their Excellencies, as they approached—and was complimented on the appearance and performance of the Band Troop—and asked as to the Scout—and Overseas Service of several of the Band Scouts whom His Excellency noticed during service.

Since of the Grimsby troops, under Scoutmaster M. R. Summers, lined James St. S. from Stuart. As the vice-regal procession passed, fell in immediately behind, and paraded to the City Hall. The Guard of Honor was marched to the City Hall, also, immediately after the inspection by the vice-regal party and took their positions in selected areas which had been kept clear for it. Scoutmaster Summers and those of the GRIMSBY Troops under his command had the honor of lining the steps to the doorway of the City Hall, with drooped staves, during the entrance and exit of the vice-regal party; and the GRIMSBY Band Troop entertained the vast crowds with their excellent work, during the wait for the presentation of the civic address, and the reception inside the building.

The GRIMSBY Band Troop, under Assistant Scoutmaster Harry Clark, also played during the exit of the vice-regal party from the civic buildings; stopping immediately upon their entrance to the waiting automobiles; and again they were the recipients of congratulations and laudatory remarks from the Chief Scout of Canada, the splendid and almost perfect performance of Troop Leader A. "S. Bied, with the bass drum, coming in for special mention. After the ceremonial, the Troops fell in on the Market Square, and headed the Hamilton District Troops to the Haymarket on John Street, where they were dismissed; the Band Troop and officers being the guests of the Hamilton District Association at luncheon at the Central Y. C. C. A. while District Scoutmaster Livingston was the guest of Lieut.-Col. B. O. Hooper, D. S. O., M. C., etc., at the luncheon extended to His Excellency the Duke of Devonshire, and his son the Marquis of Hartington, at the Royal Connaught Hotel. The Scouts were allowed their freedom from parade during the balance of the day, and returned home at their will; and needless to say not one complaint has so far been registered as to their conduct or lack of manliness during the free hours they spent in the City—while every congratulation is due all ranks for their splendid appearance and conduct under the trying ceremonial conditions under which they paraded. There was no local parade on Friday evening.

THIS WEEK—the Band Troop is requested to parade at seven o'clock on Thursday night, in full uniform, with instruments, to lead the GRIMSBY Fire Department in a short rehearsal parade of the streets of the Town and every member is requested to turn out. It will be so much more practice for the strenuous days of the Old Boys' Reunion.

ON FRIDAY NIGHT—the regular parade will be held, of all Troops and the Wolf Cub Pack, at the School Grounds, at seven o'clock sharp. Scoutmasters will arrange for their own disposition and work, after roll-call and report to the District Scoutmaster. Dress—Full Scout Uniform with staves, and instruments.

ON VICTORIA DAY—The Band Troop paraded to GRIMSBY Beach

and entertained the crowds by several selections during the afternoon and evening. ON SUNDAY last they repeated this procedure at the request of the Beach Management.

**STRENGTH**—Taken on—101 Sc. Chambers, R. 131; Sc. Dr. Hill, G. R. as of 20-5-21.

Scoutmasters will turn in the Record Sheets of each Scout as their name appears in Orders as being Struck Off Strength or Transferred to another Troop—not later than first Parade after such Orders appear.

**POSTINGS**—101 Sc. Chambers, R. to No. 4 Patrol No. 1 Troop; 131 Sc. Dr. Hill, G. R. to No. 9 Patrol No. 3 Troop as of 20-5-21.

**PROMOTIONS and Appointments**—31 Sec. Spencer, A. will act as Patrol Leader of his Patrol, No. 1 Troop vice 27 Sc. Hill, L. transferred to No. 3 Troop and pending promotion, as of 20-5-21. Scoutmasters will hand to District Scoutmaster, not later than Sunday evening, next, the names of Scouts they desire promoted or appointed to fill vacancies; and the name of a Scout to act as Color Bearer.

**TESTS**—125 Sc. Bu. Dockstader, O. No. 93 has passed the following and been awarded the badges as of 25-5-21—Pathfinder, Cyclist, Bugler.

**THANKS** are extended to the School Principals for their co-operation in allowing the Scout pupils to attend the Parade to Hamilton Friday last and to all others who directly or indirectly assisted in making it the success it was.

**THE PUBLIC** are urged to put their shoulder to the wheel and in every possible way encourage and support the Movement—The dividends are enormous—Watch for 'em in YOUR BOY.

J. A. M. LIVINGSTON, District Scout.

## G. W. V. A CORNER

The next general meeting of the Branch will be held in the Club Rooms on Tuesday evening next, June 7, 1921, at eight o'clock sharp, the Executive Committee meeting at 7.30 sharp. Every comrade is urged to attend this meeting, as it is of the most vital importance to the life and health of the Branch that a deeper interest be taken by all members.

Arrars of dues are a millstone around the neck of any organization, and comrades who are not paid up for the past and current quarter are urged to make an effort to clear their membership before the end of June.

A keen interest in the affairs of the Branch, and patronage of the rooms and canteen, will soon put the Branch in the position it should occupy in this district, and every comrade or ex-service man is requested to put his shoulder to the wheel and make the local G.W.V.A. a strong factor in the life of the community.

## AUCTION SALE DATES

**THURSDAY—JUNE 2—SALE OF EDWARD KEITH, McCarrick's Side-road South, BEAMSVILLE**, on this date is CANCELLED, by request of the owner, Jas. A. Livingston, Auctioneer.

**JUNE 4—SATURDAY**—On this date at the residence of Mr. Albert Crabtree, at the bottom of the GRIMSBY Mountain Road, I will sell all his household furniture, without reserve, prior to his leaving GRIMSBY. Sale at one o'clock. Terms—CASH. See billa. Jas. A. Livingston, Auctioneer.

## COME AND SEE FLOWERS

At the annual meeting of the Horticultural Society the matter was discussed of having "visiting days" when members would visit the various gardens at their height of bloom. Next Friday evening, June 3, President E. G. McCollum will be at home to the public to show his trial blooms. He has a most wonderful collection of named varieties with a riot of color from white to deep purple. The object of these visiting days is to give lovers of flowers an opportunity to see the better kept gardens at their best and to encourage the love of flower and the beautifying of the district. Mr. McCollum's residence is next to the Park School and the public is welcome but it is especially urged that the members of the Horticultural Society be present.

## WHERE'S BROTHER SISTER, FATHER, OTHER, AUNT, UNCLE OR COUSIN!

You know, but the Secretary of the Old Boys' Reunion doesn't. Send in their names at once, to make Old Home Week as long to be remembered and out of GRIMSBY. It won't be a success unless we have every single one of them home this summer.

## THE CROWN PRINCE OF JAPAN IN ENGLAND

Photo shows the King and Crown Prince of Japan riding in an open carriage from Victoria Station to Buckingham Palace.

## GERMANY REDUCING HER ARMAMENT

## ATTENTION HOUSEHOLDERS!

We want all householders to provide room board for "Old Boys' Reunion" in the accompanying form, and send it to the Independent Office, Stewart's Drug Store, or mail to the undersigned.

J. ORLON LIVINGSTON, General Manager.  
L. J. FARRELL, General Secretary.

### No. 3—Niagara-by-the-Lake

Now for a change of scenery and locality we turn to Ontario and to its first provincial capital of Niagara, or Newark as it was first called.

A magnet name is Niagara, for it includes not only the Little Town of our Little Trip, but the River and the Falls and the Park that draw millions to their attractions. But the old town will keep us interested in the meantime; the other spots can wait. It is a town-with-a-history, like many another Canadian centre; a history that touches on all the outstanding events in our national life; the day of the Indian; the rule of the Frenchman; and the later and present dominance of British rule.

You cannot "do" old Niagara on a single visit; I've made about a hundred and always find something new of interest. You should, moreover, make this Little Trip, if done in the flesh, leisurely, for it is a leisurely burg. It's bad form to hurry or get excited, or even run to catch the boat for Toronto across Lake Ontario; or Queenston, up the river eight miles. It's a sort of sleepy Hollow, and blessed be that there are such places left.

Well, what first? Here's a church handy; the old parish Church of St. Marks, by the way. What a story it's war-burned bricks could tell—of the firing of the place during the War of 1812, of the hangman's tree in the graveyard, and of the suggestive epitaphs on the moss-grown stones, or the memorial tablets within. Bits of earthworks can still be traced in this quiet God's Acre, and many a soldier here rests in his narrow bed of soil.

Not far away is Fort George, in excellent preservation, with earthworks complete as to outline and an ancient powder magazine trying to hide itself within the enclosure. Here is the sycamore tree under which General Brock's body lay for a few years and here, too, the gateway out of which he galloped on that early October morning of 1812 to Queenston Heights and to his death. Down by the lake, the less imposing walls of Fort Mississauga are intact, a little fortress that escaped the baptism of shell fire because peace had come before it was completed. Another reminder of the stormy past is had in the barracks of Butler's Rangers on the Common, queer old structures that did duty during the recent war. One may pass from this spot to the Butler's Rangers graveyard, where many of the defenders of a century ago sleep under the quiet trees.

Anything else to see? Surely: especially the Museum of the local Historical Society, full of articles of the deepest interest, helping to make the past live again. There is the Court House, with its memories of the Mackenzie Rebellion of 1837 and of slave riots, the old Parliament Oak, and Navy Hall, in which the first Legislative Assembly under Governor Simcoe was held in 1791. Many a residence is full of ghosts of the past and many a street recalls the same past in its name. Try this Little Trip.

(Copyright by British &amp; Colonial Press Limited)

## Farm and Field

### FOR SOLDERING

Farmers have a great deal of soldering to do. Oftentimes when it is desired to mend something, it is found that the supply of soldering flux has been used up. It is very easy to make a good flux by dissolving pieces of zinc in hydrochloric acid. The reaction forms a solution of zinc chloride. Just keep adding zinc to the acid until no more chemical action is observed. The solution is kept in a glass bottle and applied in the usual way.

### "CORNERS" IN HARROWING

In harrowing with a tractor—using a planer disk or a harrow—the corners are not so easily harrowed as the surface and, as the land rapidly narrows down, it becomes impossible to turn quickly enough, and the developer something like a "peninsula." It is much better to begin turning soon enough to make the circle without trouble, leaving a little strip of land each time. Then when the field or land is finished, he can make a trip or two along each turn-row and harrow these missed places. O, if the operator wants to cover every inch of the land on the first trip—corners as well as ends and sides—he can "circle out" corners when they become troublesome. To "circle out" means to harrow around and around in a circle at a corner until the curve of the turn is more gentle. Three or four circles will help a corner wonderfully.

### SUMMER SHELTER FOR HOGS

The practice of keeping breeding sows and growing litters enclosed in expensive hog pens, more especially during the summer months, has been almost entirely discontinued on the more successful hog raising farms. Outdoor life has been found very much more advantageous, but some sort of shelter is necessary to protect the hogs against inclement weather and the sunshine of midsummer.

Various types of small pens designated hog cabins have been kept under observation for several years on the Experimental Farm at Ottawa. These have included: (1) the A-shaped cabin; (2) the straight-walled cabin with tight sides; (3) the straight-walled cabin, with (a) roof section hinged, (b) one side hinged upwards, (c) roof section and both sides hinged so as to be hooked upwards. The latter cabin (c) was found to be infinitely superior for the summer months because it afforded relatively cool shelter. Hogs that had access only to tight-sided cabins preferred to remain in the bright sunshine rather than to use the shade that the house provided. The sectional cabin with hinged sides and tops can be made thoroughly adaptable for winter use by proper fastening down and battening the joints.

### POUTRY

The temperature of a setting hen's breast has been found to be one hundred and five degrees, while the temperature of the plumage varies from ninety to one hundred degrees. This proves that the chick is not confined to one temperature when brooded by a hen, but can select a place where it is comfortable. This idea must be followed out in artificial brooding. Do not confine the chicks in a brooder without ventilation and expect the motto thrive.

The hen-brooded chick can at any time stick its head out of the mother's plumage into the cool fresh air. When brooding with stoves keep a good fire burning so that the chick can obtain plenty of warmth when it is needed but also give the chicks a chance to run out away from the heat where they can occasionally breathe the cool fresh air

which seems to give them health and vigor.

When chicks huddle tightly together around a brooder fire it is a sign that the right amount of heat is lacking. A coal burning brooder fire should be warm enough so the chicks will spend the night close to the outer edge of the deflector. Then if the stove cools down the chicks can move closer. Chicks that are warm enough will not huddle but will rest quietly on the floor beneath the deflector. Only an occasional contented chirp will tell the operator that several hundred lively young chicks are resting comfortably for the night. Do not suddenly go into a brooder house at night with a lantern as the chicks will be startled and will scatter and have difficulty in finding their way back when the lantern is gone. It is best to use a flashlight and only keep the light on when it is very necessary.

A well in Pennsylvania that already has been bored to a depth of more than 7,000 feet may become the deepest in the world. Germany now holding the record with one 7,350 feet deep.

### MICKIE SAYS

"YA SEE, READERS, IT'S LIKE THIS—EVERY WEEK A WHOLE GANG OF SUBSCRIPTIONS COMES DUE 'N WE GOTTA ALL 'EM FUNDS BE SENDIN' OUT NOTICES AN' WE DON'T LIKE T'BE DUNNIN' OUR FRIENDS 'N IF YAD JES KEEP TRACK OF YER DATE AN' RENEW AT THE PROPER TIME—MY GOSH! IT'D SAVE US A LOTTA TIME 'N TROUBLE 'N WE WOULD SURE BE OBLIGED 'N EVERYTHING!"

## DOMINION LIGHT

THE CANADIAN-MADE LIGHTING PLANT FOR RURAL HOMES, FARMS, ETC.

Manufactured in Brantford, Canada, by

### Dominion Steel Products Company, Limited

The engines in DOMINION LIGHT plants are as carefully finished as are those in the finest motor cars. The shafts are carried by 3 SKF bearings, producing a total absence of vibration, sparking, or heating under all loads. This efficiency of design is reflected in low fuel consumption.

We use highest class storage batteries of 160 ampere hours, 8 hour rating. The switchboard (a real switchboard) is entirely enclosed, preventing accidental short circuits, and it is equipped with a circuit breaker, so that it is utterly impossible to either overload or injure the battery.

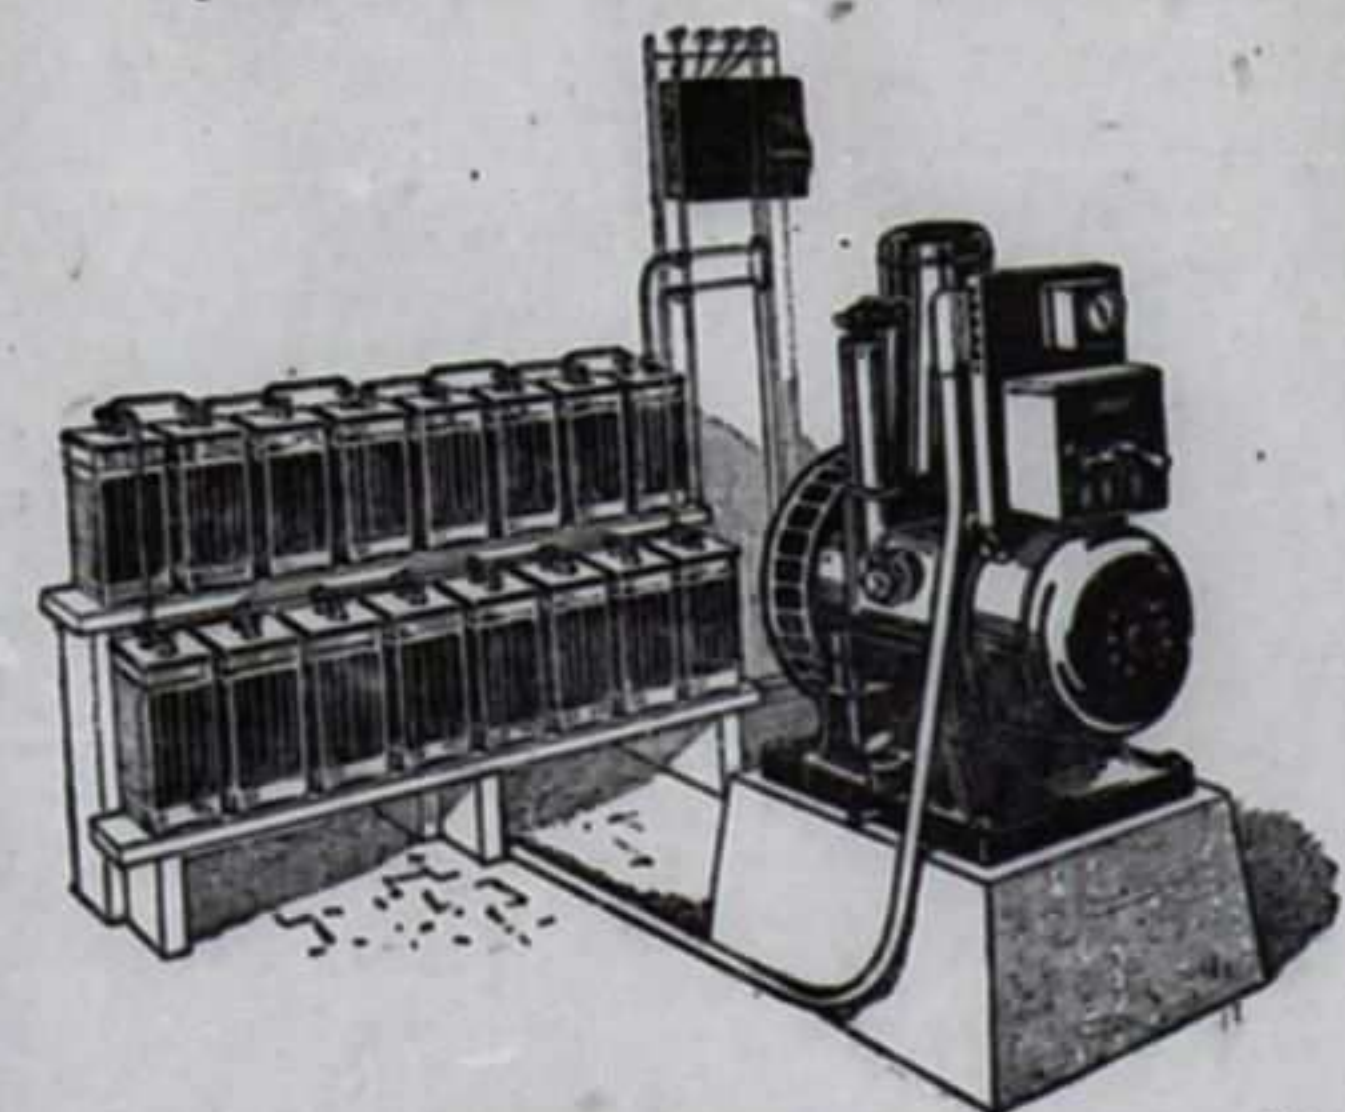

DOMINION LIGHT Plants are MADE RIGHT AT HOME and require only a SMALL QUANTITY of COMMON COAL OIL to operate them.

If YOU want THE BEST, get a DOMINION.

## MAINLY FOR WOMEN

### HOW TO PRESERVE EGGS AT HOME

The most improved method of preserving eggs at home, recommended by agricultural experiment stations and other authorities, is the water-glass treatment, which has given satisfactory results under varying conditions for a number of years. Water-glass, or solution of glass, technically known as sodium silicate or potassium silicate, is sold in two forms—a thick, syrup-like liquid of about the consistency of molasses, and a powder. Both forms are sold by leading druggists, though the liquid material is probably the most popular. It is not expensive, and usually a saving can be made by purchasing it direct from the manufacturers. Properly diluted, a gallon of water-glass should make sufficient solution to cover and store between sixty and seventy dozen eggs.

### SLIP-ON KNITTED DRESS FOR THE YOUNG GIRL

(BY MARIE BELMONT)

The knitted dress seems to have established itself in the favor of every woman who envisions over outdoor sports. This model is done in the attractive drop-stitch weave. The color is jade green which always seems to appeal to the young girl, who perhaps realizes how it accentuates the freshness of her complexion. About the square-cut neck-line, cuffs and hem of the jumper, as well as the hem of the skirt, gay color is introduced. Threads of brilliant rose violet, gold and darker green silk are cross stitched on the jade green wool which makes an unusually striking trimming.

Dissolve one part liquid water-glass in ten parts water. If the powdered form is used a slightly smaller quantity of glass may be employed. Only pure water should be used, and to be sure of its purity it is well to boil it for about twenty minutes, then allow it to cool before adding the water-glass.

Stir the mixture thoroughly, and when the glass is entirely dissolved the solution is ready for use. The water-glass is heavier than water, and will go to the bottom unless thoroughly mixed. Almost any sort of a container that will hold liquids will do for packing the eggs, though large earthenware crocks which have a glazed or vitrified surface, such as butter crocks, are preferable. Crockery, glass or wooden receptacles are better than metal containers. If the eggs are carefully placed in the vessel on end and stood close together more eggs can be stored in a given container and less solution is required to cover them. It is not necessary, and many times it is not convenient, to store the eggs in large quantities at a single operation. The eggs can be added a few at a time, as they are gathered each day fresh from the nests.

Simply place the eggs in the solution and see that they are covered by the liquid to a depth of two inches. If the solution evaporates add more; the eggs must be covered by the water-glass as long as they are in storage. A good plan is to cover the containers with lids to prevent evaporation and exclude dust. If close-fitting covers are not available, secure a sheet of tough wrapping paper to the top of the receptacle.

Store the containers in a cool, clean place, free from objectionable odors. A well-ventilated cellar is all right. Examine the container about once a month to see that the eggs are submerged.

**Eggs Must Be Fresh**  
Strictly fresh eggs are necessary to insure success. Use infertile eggs whenever possible. Test the eggs with a candle to be sure of their quality.

Scrub and scald the containers to insure cleanliness. Dirty eggs or eggs which have been washed should not be used. One defective egg may render the entire lot unfit for food. Do not attempt to keep the eggs indefinitely; no method of preservation

will do this. The eggs should be consumed within nine months.

Remove the eggs from the solution as they are desired. Do not keep them out of the preservative for any considerable time before they are to be used—a week is all right. Do not replace the eggs in the solution once they have been removed; to do so may influence the other eggs.

When preserved eggs are to be boiled, first make a tiny hole in the shell at the large end to prevent the shell from breaking. Piercing the shell with a needle is the easiest method.

### STRIPES IN DECORATION

Just as the short, plump woman must avoid horizontal stripes and her slender sister eschew vertical ones, so must the walls of the narrow, high ceilinged room be forbidden striped paper and its windows vertical striped curtains. But the low ceilinged, low windowed room can revel in paper with stripes and with curtains that are striped lined from casing rods to sills.

A valance of striped material, the lines running horizontally, will apparently cut down the height and broaden a too high window, and stripes applied to the hem of a plain color or lightly figured curtain will have the same effect.

Bold stripes are trying in any but the most bizarre decorative schemes. Shadowy, indistinct stripes, self-colored, perhaps, are far more pleasing for every day use. In general striped materials should be avoided when much cutting and piecing must be done, for joining stripes at seams almost always leaves much to be desired.

But stripes can be used for the loose cushions of a chair whose framework is covered with plain material. A low backed chair with arms almost as high as its back is preserved from a squat appearance if the back cushion is perpendicularly striped.

Striped cushions with willow furniture are generally mistakes. The willow work has too many lines of its own.

Stripes of various widths, the wider stripes patterned on dainty designs, are delightful for upholstery use on chairs of French origin when the woodwork is not at all heavy and perhaps delicately carved.

### BACON AS GARNISH

Bacon is a very picturesque as well as a delicious garnish. It can be used on many salads to add to both their appearance and their taste.

Strips of -offed bacon, done just and evenly browned, laid on a plate of potato salad make the dish something quite out of the ordinary.

Crisp curls of bacon add much to the appearance of broiled fish.

An omelet may be garnished with bacon and so may tomato salad, broiled chops, and a dish of creamed potatoes. Indeed, creamed potatoes and broiled bacon served together form a very satisfying luncheon dish.

Mrs. Harriet T. Upton, president of the Ohio State Suffrage association, is slated to be the first woman member of President-elect Harding's cabinet and will be secretary of the new department of welfare, provided congress passes the bill.

### A LACE TRIMMED ORGANDIE FROCK

(By Marie Belmont)

Organdie in a beautiful shade of yellow is chosen for this frock that is destined for summer wear. It is designed with a straightly cut tunic that is continued to the shoulders. The lower part of this is enriched with a handsome piece of lace that is dyed to match the yellow of the dress. This is outlined with a piping of the organdie, a pleasing manner of decoration that is successfully used on the hem, sleeves and neck-line. Small pearl buttons are introduced on the front of the frock. The duced of black velvet is elaborated with a scarlet poppy and ears of wheat. Similar trimming appears on the black lace hat.

## SLEEP

Oh! what a wonderful word that is! Can you do it? That is, drop off into a good sound refreshing sleep? If you are unable to, there is something wrong with your nervous system. It is a danger signal. Nervous prostration, melancholia, nervous dyspepsia are only a few of the serious maladies that are liable to develop.

## In The Churches

### ST. JOSEPH'S (R. C.)

First Mass ... 8.45 a.m.  
Second Mass ... 10.45 a.m.

Fighting "B" Squadron, 2nd Dragoons, has the reputation in this district, and to belong to it is to belong to a real outfit. See Lieut. Charlie Burland and join up now.

J. E. Scott has on exhibition in his store window a crayon painting of the old John H. Groat foundry that used to stand where the Baptist church now stands and which was burnt in 1878.

J. A. M. Livingston was in Toronto on Thursday last attending the garden party given by Lieut. Governor and Mrs. Clarke, to Their Excellencies The Duke and Duchess of Devonshire.

The Ladies' Aid of Grassies Presbyterians Church will hold a pie social at the home of Fred Walker on Friday evening, June 2. A good orchestra will be in attendance, and admission will be twenty-five cents to all.

The death occurred at Vineland on Thursday of last week of Mrs. Wythe, mother of the late Rev. John Muir, of Grimsby. The deceased lady was born in Scotland 95 years ago, but has resided in Canada for a great number of years.

Our men's wear section is overflowing with hot weather clothing. Palm Beach suits, outing pants, sport shirts, bathing suits, invisible suspenders, belts and what not. Get supplied. You'll find our prices reasonable. M. M. Stephen.

Congoleum squares, \$12 up. Tapestry squares, sizes 3x3 1/2 yards, \$29.75. Linoleum, oilcloth, hammocks, window shades, lace, scrim and marquisette curtains and panels, etc. New goods, new prices. K. M. Stephen.

J. M. Lymburner, D. W. Nicholls and Robert Bell have been appointed census enumerators for Calston, and T. H. Nelson, W. F. H. Patterson and W. H. Tremblay will hold the same positions in South Grimsby.

Entertain your friends at the Guild Card Party in the Parish Hall on Thursday evening, June 2 from 8 to 12. You can assist the committee by reserving your table from Mrs. Harold Woolverton, phone 57; admission 50 cents.

Just in—Blue Jay Foot Powder, Foot Soap and Corn Plaster; Terro mending tape, Shavald, Adhesive plaster, all sizes; absorbent cotton and gauze, Formaldehyde and Sulphur Fumigators and Dental Floor. Stewart's Drug Store.

Lower prices are the order of the day, and there is not the slightest doubt that the prices of many of our fine fancy wares are down, and we have put our prices down much lower than the drop in material.

English woollens we will make to measure at \$22.00. Want you come in and let us show you our goods. The keenest buyers who "look around" finally buy here. In justice to yourself see our goods. Union made. Farrar Clothing Mfr., 5 Market Square, Hamilton.

# MOTOR SECTION

## EACH AUTO TIRE IS AS STRONG AS WEAKEST POINT

### What Motorists May Reasonably Expect in the Way of Service

What may a motorist expect from his tires? No question seems less understood among car owners. Men are no longer content with the old-time service, but demand a new criterion as standard tire mileage increases.

A tire is no stronger than its weakest part, so the object of every tire manufacturer with an interest in his product is to build a perfectly balanced tire. It is not enough that the raw products be of maximum strength and quality. Balanced construction is of first importance.

Strong beads are useless with a weaker carcass. There is no object in the side walls enduring after the carcass is gone. The same is true of the tread and of the breaker strip imbedded in cushion gum. An over-amount of material going into any one part means not only increased

cost without increased efficiency, but the weakening of the whole.

A tire under normal air pressure and load will perform a specific amount of work. The same tire under abnormal conditions of overload or under-inflation will in all probability perform the same work, but for a much shorter period. Excessive strain on certain parts wear them out more rapidly. Service rather than mileage is the gauge of tire excellence.

Mileage is only a condition in a tire and is controlled in large part by care or abuse. In road conditions are important. But service is what is built into the tire. From standard tires a motorist may expect excellent service. From "gyp" tires—so-called bargain tires—he usually gets what he pays for. In a large measure he determines his own mileage by the conditions under which he uses his tires.

American motorists consume twenty times more oil per capita than Great Britain.

## CAREFUL DRIVING WILL PROLONG LIFE OF CAR

### Majority of Operators Ignorant of Proper Method of Caring for Car

Not long ago a distinguished editor wrote an extremely interesting story on the potential life of a motor vehicle. He told us that he had in his possession a motor car which he had bought 15 years ago, and which was still very much in active service.

He further stated that he believed this venerable bit of mechanism was good for another 15 years. He pointed out the moral for motor car manufacturers that they should build every vehicle with a potential life span of this aged phenomenon.

Now, in point of fact, that is just what motor car builders are doing. The potential life of every car turned out of the factories is almost unlimited. What shortens this continuing span is generally ignorance. Ninety-nine hundredths of the motor-car fraternity is densely ignorant of the vehicle that is its reason for being.

The average car owner knows practically nothing of the mechanism of his mount, nothing of its principles of operation of its needs and the results that will follow neglect. All he knows of his car is how to drive it. If we take perfect lubrication and adjustment as 100 per cent maintenance, then the average car gets about 10 per cent of the attention that it needs. If every car of the nearly 10,000,000 that are now running received 100 per cent maintenance, we venture to say that the average life of a car would be well over ten years instead of the scant five that is estimated to be the ordinary span now.

## GLANCING BLOW MORE HARMFUL THAN HEAD-ON

A surprising fact in tire conservation is that it is better to run over a rock in the roadway than to hit it a sharp, glancing blow. Of course, such obstacles should be avoided if possible, but when a choice is forced upon the motorist, this decision is best.

To hit a rock head-on may cause a severe jolt and, furthermore, is likely to stone-bruise the tire, but it causes less damage in the end to the tire properly inflated than a sharp blow against the side wall and rim.

The reason for this is that the tread of a tire is the part best able to absorb shock incident to normal operating conditions.

Side walls, however, are not intended to be shock absorbers, but to give the carcass of the tire strength and shape. Rubber on the side wall is laid on to protect the tire fabric from the destructive action of the elements.

The tread of a tire is thick and resilient, and made to withstand the abrasive action of the road. A layer of cords, heavily embedded in cushion rubber, is especially designed to neutralize and distribute the blows. With tires constructed in this way the motorist has little choice, if unable to avoid an obstruction then to take the blow on the tread, rather than on the side wall. Careful driving should rarely make such a decision necessary.

## KNOWLEDGE FOR CAR OWNER

If in a hurry to stop a spring from squeaking, pour a little kerosene over it, guiding the oil down the sides with finger so it will run in between the leaves. Wipe off the oil.

Never start your car with a jerk. It is preferable to engage the clutch gradually and see that the car starts with as much ease as is possible.

The asphaltum on the top of a battery cell may be sealed again by the application of a little heat.

If a horse driving along in front of you shows any inclination to be frightened, always slow down and, if necessary, stop.

Whenever your car has suffered a bump of any kind, a crash against the curb, or anything of that sort, the wheels should immediately be tested for alignment, as a bang of this kind is quite enough to force them out of correct alignment which will lead to excessive wear.

For the man who wants to get maximum mileage from his tires, the habit of using a spare tire to afford regular changes, beginning at the right front and progressing around the car, is a valuable one to form. In this way each tire gets a weeks' rest in four, during which time it should be gone over carefully and have any cuts and abrasions vulcanized.

Batteries should never be tested with a screw-driver, as it causes a great drain on the batteries. It is always best to use a hydrometer and if the liquid reads 1.275 to 1.300 all is well. If it gets down to 1.200 have the system looked over by an expert.

Throwing the ignition switch to "off" position and then leaving the keys in place, does not insure the car from theft. Always make it a rule to take the keys with you, no matter how short a time you are leaving the car unguarded.

When the leather car belt develops considerable slippage it is probably because the rough side of the leather is against the pulley surface. The smooth side of the leather has a much greater traction adherence.

## HINGE LUBRICANT

Lansed oil mixed with a small amount of graphite is recommended as a lubricant for door hinges and latches, which seldom receive attention in this way. Ordinary cylinder oil has a tendency to run which is not desirable at this location, because the clothes of passengers are likely to come in contact with it.

Believing that automobiles are a necessity in fighting the automobile bandits in Philadelphia, the Director of Public Safety asked that the Police Bureau be provided with eleven high-powered motor cars for fighting this type of criminal.

In the Algerian Sahara the Arabs are abandoning their famous horses for motor-propelled machines.

## ACTIVE BUYING OF AUTOMOBILES SOY BY STUDEBAKER REPORT

Thanksgiving of motor cars in Canada is the upward trend is evidenced by the statement of the Studebaker Corporation of Canada, Ltd., that their sales for the first nine months of this year show an increase of 157 per cent over corresponding period last year.

A further report that their factory at Walkerville, Ontario, have a full production since the first of April.

In venting upon the condition of the automobile market, W. G. Palmes, Manager of the Studebaker Corporation, has the following to say: "The hour the Dominion there is a need revival in the buying of automobiles, and there is every indication that sales for 1921 will be more than double our volume of business last year. I attribute this demand to the low per capita ownership of cars in Canada when compared with the same figures in the United States. Then, too, we must remember that the automobile is rapidly an indispensable factor in our daily work, and this fact will give a foundation to a constant demand for cars."

## LIGHT LUBRICATING OIL FOR CRANK CASE

The proper way to clean your crankcase when changing oil is to do it after the car has come off a trip. The lubricating oil is then warm and will proceed as follows: Remove the plug and let the oil drain. Drain, replace plug and crank case drain. Turn your motor over with the starter for two or three minutes, again remove plug and drain oil. Replace plug and fill with new oil.

It has been the practice of a good many motorists to use kerosene or gasoline for flushing out the crank case. This has proved very unsatisfactory for the reason that the kerosene is into the connecting rod pockets and in the troughs of the crankcase and remains there. This contaminates and cuts the lubricating due to the new oil when put in the crank case.

## MOTOR DIGEST

Gasoline was first used as a liquid for cleaning of clothes.

Only one person in every 5,300 in Russia owns an automobile.

Great Britain is expending \$40,000,000 a year on highways.

Senator Warren G. Harding is a member of the Chauffeur's Union at Washington, D. C.

A new motor company organized in Manitoba, with a capital of \$1,000,000, will build automobiles in Winnipeg.

An average of four men were employed to construct each of the 1,650,000 passenger automobiles produced last year.

All but nine States in the Union have already surpassed the total number of motor vehicles for the entire year of 1919.

Money invested in the automobile business in the United States has now reached the stupendous amount of \$3,168,524,694.

Passenger car and motor truck owners in New Jersey are facing an

increase in tax fees from 20 to nearly 400 per cent for 1921.

Motor vehicle shipments from factories during the month of August were reported to be the heaviest in the history of the industry.

Edward Morris, 16 years old, of Philadelphia, has the distinction of being the youngest motor race driver in the United States.

Municipal underground parking stations for motor vehicles have been in operation in Europe for more than ten years. They are found in Berlin, Paris and Rome. The average capacity of the subway garages is 200 cars.

**THE remarkable economy of the LIGHT-SIX is shown by its average, in the hands of owners, of 21 to 26 miles to the gallon of gasoline and twelve to fifteen thousand miles to the set of standard equipped Cord Tires. Light weight, perfect balance, and its motor's exclusive Internal Hot Spot contribute in making possible this economy.**

## A WEIRD BALL GAME

There was a ball game at the local lot on Thursday night.

At least some people said it was a ball game.

From where we sat it was a "Comedy of Hits and Errors".

There was a thousand hits made.

About two thousand errors.

Poor pitching.

Good pitching.

Sometimes no pitching at all.

Tackeaters scored 23 runs.

Left Overs scored 11 runs.

The Tackeaters outbatted the Left Overs.

Left Overs outerrored the Tackeaters.

Tackeaters scored three homers.

Ches. Fisher two and Wray Fisher one.

Wray Fisher walked seven Left Overs.

Left Overs used two pitchers, Norton and McBride but they were just five innings too late in starting "Old Smoke".

It was some batting bee on both sides.

It was also some game of errors on both sides.

"Do" Farrell caught out five Left Overs on foul tips.

Alexander caught out four Tackeaters.

"Pat" Patterson in left field for the Left Overs played a beautiful game.

He was the best outfielder on the lot.

He scored two runs, was once walked and had a hit out of four times up. He accepted three pretty chances in nice style.

"Doc" Alexander never had a single solitary argument.

It took two hours to play the game.

The score:—

Tackeaters—4 0 5 1 2 0 0 3—23.

Left Overs—4 3 0 0 2 0 0 2—11.

GRIMSBY WINS AND LOSES

With a team that resembled a patch-work quilt more than it did a ball team, the Grimsby Soft Ball artists who are essaying to win the District Soft Ball League, stacked up against Stoney Creek one night last week and were trimmed to the tune of Nine to Five.

This same team with a few of the old patches torn off and new ones added, done better when it met the Fruitland aggregation a few nights later for they won a loosely played game by a score of 17-5.

The GRIMSBY team plays the Winona boys at the school grounds TO-NIGHT. This should be a good game as GRIMSBY will put a strong team on the field, and as the Winona boys are for first place in the League.

A Bell Tackeater will give a good account of himself.

## Games Scheduled

Soft Ball League

THURSDAY NIGHT, June 2—Tackeaters vs G. H. S.

TUESDAY NIGHT, June 7—Metal Craft vs Left Overs.

Fruit Belt League

SATURDAY, June 4—Grimsby at Beamsville; Smithville at Fonthill.

DISTRICT SOFT BALL LEAGUE

To-night—Winona at Grimsby; Stoney Creek at Beamsville-Thirty.

June 5—Fruitland at Stoney Creek; Grimsby at Beamsville-Thirty.

June 8—Fruitland at Winona; Beamsville at Stoney Creek.

HURRAH FOR THE GRIMSBY BLUES

Grimsby Blues, the crack ladies soft ball team of the town, went on a batting rampage on Friday night when playing against the Public School girls and piled up the enormous score of forty-eight runs to their opponents' twenty-two. Some score.

Florence Norton was doing the twirling for the blues, and her work was pretty nifty. Besides pitching a masterly game she also hit the old horsehide for three long homers.

The Blues showed that they are a nifty aggregation of ball tosters and with a little more practice will be a stiff team to beat.

CRICKET

GRIMSBY cricket team defeated the S. O. E. team of Hamilton on May 24th by sixteen runs.

## SPORTITORIAL

George C. Hoshal, who in his palmy days was a member of the old Cayuga Mud Larks, still is the fever. Last week he presented the local Fruit Belt League with a new catcher's pad, mask and glove. The boys thank you George and promise to make good use of them.

D. B. Birrell's Ten Rooms has made the teams in the Soft Ball League a very fine offer which has been accepted by the players. After the season is all over he will entertain all the players and the league officials to a banquet in his tea rooms and at the same time THE INDEPENDENT trophy will be presented to the winner of the league.

The Fruit Belt League opens its season on Saturday of this week, when GRIMSBY plays in Beamsville and Smithville plays at Fonthill. It is to be hoped that the local fans will turn out en masse and journey to the eastern town and give the local lads a good send off in the opening game. The GRIMSBY team is not going to be the strongest team in the world by any means, but it will be a team that will be a stinging block for its opponents at all times. Let's all go to Beamsville Saturday afternoon and cheer the boys to victory. The game starts at 2.30.

Woodstock, May 27.—A local "fly cop" baseball fan had Garfield's escape all doped out as right under the rules. "Police Magistrate Hall committed him at Woodstock," he said, in explaining how things got "balled up." "Crown Attorney Hall prosecuted him, Miss Ball, the court stenographer, took the evidence. Then Death Watch Ball was the guard. Four balls. Batter walks."

Errors lose ball games. If you don't believe me ask "Smoke" McBride and "Jimmy" Farrell, the franchise owners of the Left Overs. Errors lost a game for them the other night. Not because the Tackeaters did not make any, but because the Left Overs made more than they should. Something seemed to be wrong with that Left Over outfit. Every man in the infield seemed to have an attack of erythritol all at the same time, and that was the best part of the first seven innings. On the other hand the Tackeaters made plenty of boobies too, but they kept them spread farther apart. Neither team was playing what you could call first class ball. It surprised the rabid fans kile booting them all over the lot. To see men like Burgess and Konkle made more errors in this game than he made all last season, and the same goes for Burgess and Bonham too. That Left Over infield was about as tight as a twenty acre field without a fence around it. Errors are bad things to tote around in the old bat bag and it is up to both team captains to do a little razzing among those players and make them tighten up and play ball.

There are a great bunch of boys in training, all trying to make a place on the Fruit Belt hard ball team, and if hard work and "pep" count for anything the team will be a strong one. The opening game of the season is on Saturday when the local nine stack up against Beamsville, and right now, even at this late date it is a hard proposition to say who will compose the team. In the pitching department: Manager Melay has Wray Fisher, a boy who twirled some fine ball last season; also Ches. Fisher who at times has shown flashes of speed that makes him look like a powerful mound man. Burgess will hardly be in shape to work in the opening spasm, as he is having a little trouble with his old soup bone, so it will probably be Wray Fisher for the opening game. Doc Alexander is trying for a place in the catching department, and he will very likely be the man behind the bat on Saturday as he has shown an aptitude for handling Fisher's slants. Stephenson will be the other catcher as he can handle Burgess better than any of the other recruits. Enos Fisher will likely be on the initial sack and if he is you can bet your socks that there will not be a better first sacker in the league, either in fielding, batting, base running or ground covering. Andy Mickus is almost sure to be guarding the third sack and here again we have a real ball player, and that about lets the team out so far as strength is concerned. All the rest are "greenies" and have yet to show their ability. Sammy Bonham, Roy Farrell, Dave Fisher and one or two youngsters have a chance to secure the job of working at the second bag but who will fill that short stop hole is a bothersome question. There are a lot of likely looking lads for the position but they all lack experience. For the outfield positions there are about twenty recruits seeking a chance but at present they are all untried. None of them have had the acid test of a game and it looks like Manager Melay and President Rus, had better try pot luck and

take the first three they come to. From the way the boys are practicing there is no doubt but what GRIMSBY has the makings of a wonderfully fast team, but at the present time all we have is "the makings" and they will take a lot of "rolling" before we have a perfect team. The new diamond is in great shape and we predict that it will be the fastest, snappiest diamond in the league before the season is over.

I have been accused by some of the supporters of the District Soft Ball League of "knocking" that league and of not giving it publicity like the Municipal League and the Fruit Belt League have received. All right, I admit that I rapped this league in last week's paper and in so doing believed that it was in the best interests of the sport in so far as Grimsby was concerned. I did not "knock" the league as a league, nor never intended to do so nor will not do so, but I did take the stand, and I still maintain that stand, that it is a foolish move on the part of the Grimsby players to enter a team in this league if they intend their Municipal League and the Fruit Belt hardball team to be a success. If the other four teams in the league wanted to form an association why could they not have done so and left Grimsby out, then when the winner of the league was decided, play off with the winner of the Municipal League for the championship of the district. So far Grimsby has played two games in this league and have not made a showing that will set the world on fire, despite the fact that a team can be gathered together in this town that could trim any team in the league hands down. As far as the publicity end of this league is concerned all the information that ever reached my desk regarding it was from the street talk. Now, when a theatrical man or a circus man wants to put a box office winner over he does not leave it to the street talkers to do his advertising, but he hires for the newspaper offices with his hope. At the present time I do not know the right name of this league or if it has one. I do not know who is at the head of it, whether there has been a trophy donated, whether a schedule has been drawn up or anything else about the league except that it is in existence. If this league wants publicity it can get it the same as any other league, but I am not going to chase after the promoters of it or get down on my knees and beg for it. Ball games in this league constitute news the same as from any other league, but I want to know first who I am doing business with, where the games are going to be played, etc. If you want publicity, boys, do not sit around and grouch about it, but give me the right dope and you will get it.

## HAYHOE ENTERTAINS THE TALENT

Lance Hayhoe, a newcomer to the ranks of baseballdom, won a ball game at the ball yard last night, assisted by George Wilson, who was serving up a nifty brand of pitching. Wilson had his speed ball working to perfection and his control was magnificent, but to Hayhoe goes nineteenth of the credit for winning the old ball game. With a less classy catcher behind the bat, Wilson would have gone down to defeat at the hands of the Metal Craft sluggers, despite all his fine box work.

Hayhoe for the first three innings was a little bit rocky, as it was his first appearance in fast company, but he settled down then and entertained the talent to as fine an exhibition of catching as has been seen in these parts in many a blue moon.

While Hayhoe was performing for the public edification his team mates were garnering nine runs off "Doc" Trux Walker, but don't run away with the idea that the Metal boys were not getting some, too, for they gathered in seven tallies. All told it was a hard fought, speedy game of ball and the big crowd of fans, including Ex-Ald. Walker and his new grandstand, enjoyed it thoroughly.

Wilson struck out six men, while Walker issued three free passes to Wilson's none. Now here is where Hayhoe comes in, for he caught no less than ten foul tips. Phipps also was good on foul tips, capturing just as many as Hayhoe, ten in number. While Phipps equalled Hayhoe's number of catches, his work was not nearly as spectacular, nor as effective, as he was gathering them off the bats of heavy hitters, while Phipps was picking them off the willows of the weaker hitting school team.

Barn Crabbie with his wicked bat made a beautiful smash to right field which was good for a homer, but there was only one on bases at the time. Ed. Walker also lined out a nifty homer, also with no one occupying the bases.

Wilson sure was pitching a nice game and working hard, but it looks like the boy will have a tough row to hoe this season, as he is the only pitcher the School team has and every game he plays will be against heavy hitting, experienced players. For the first four innings Walker was pitching airtight ball, but his old soup bone started to fail him and gradually grew weaker as the game progressed.

The School team go up against the fast travelling Tackeaters to-morrow night, and this game should be a crackjack, and the school team are playing nice ball, right now and Wilson is right on edge.

The Tackeaters are leading the league at present and will give anybody's team a bad scare. Box score:

High School ..... 2 0 1 0 4 0 2 9—9  
Metal Craft ..... 0 1 4 0 0 0 1 1—7

Umpires—Burgess, Farrell and Buck.

## Standings

### MUNICIPAL LEAGUE

Fruitland	1	1	500
Beamsville-Thirty	0	2	000

### BIG TIME AT BEAMSVILLE

When the Fruit Belt League is opened at Beamsville on Saturday afternoon it will be under the most auspicious circumstances. Previous to the game the Grimsby and Beamsville ball teams will parade to the playing ground, headed by the Beamsville band. Thos. Marshall, M.L.A., will open the proceedings with a few remarks, and Reeve Garrett has promised to pitch the first ball, with Reeve Marsh, of Grimsby, doing the catching, while Thomas Marshall, M.L.A., will essay to act as the "Babe" Ruth of the league and pound Garrett's first offering to deep centre. If you want to see a good game of ball and be present at the league opening, make it a point to be in Beamsville not later than 2 o'clock.

### NEW UNIFORMS ARRIVE

Brand new uniforms—twelve of them—for the Grimsby Peach Kings, entrants in the Fruit Belt League, arrived in town on Monday morning through the sporting goods department of Farrell's shoe store.

The new uniforms are a salt and pepper grey with red stripes, grey stockings, with a red band around them. The letter "G" in red appears on the right breast.

Besides the uniforms there also came three bags of heavy duck canvas reinforced with leather.

The Peach Kings should look pretty nifty in their new outfits. The boys will wear them for the first time on Saturday, when they open the season at Beamsville, and again on Tuesday evening next, when they play Beamsville an exhibition game in Smithville at the garden party to be held there under the auspices of the Smithville Baseball Club.

## LO! THE POOR UMPIRE

(By U. Tellum Napoleon)

Ever since we were old enough to take a desperate swing at an umpire, we have always been in sympathy with him, because we were never fortunate enough to connect!

We have always felt it incumbent upon us to protect these poor working girls of the diamond, never once interfering with their destruction.

It wasn't so many years ago, either, that we took occasion to glow our way through an angry mob that was intent on assaulting an umpire because he called a play right. Our intentions were of the best, namely, to get a ringside seat, but one overzealous fan insisted that we were a friend of the empire and when we plowed our way back through the mob our left opte was telling our right one that it was time to go to work.

Ever since that eventful day we have been strong proponents of capital punishment.

We once asked a well known umpire if the work was really as it was painted. And his reply: "Naw, it's either dis or dat" has long rebounded in our memory as we realize that "dis or dat" covers a multitude of sins.

On another occasion we asked a prominent indicator holder, who previously was reckoned a good ball player, what features of umpiring it was that hurt him the most. "It's the low-spoken but biting sarcasm of the player," he replied, and then went on and told us a number of incidents.

A very particular friend of his slip into home plate one day and the umpire called him out. The stands were in an uproar. The player got up, dusted off his uniform and held out his hand to the umpire. "I want to congratulate you." "What for?" the dazed umpire heard himself reply "Because," insisted the player with a broad grin on his face, "never until this moment did I realize what a good ball player you were."

## THE HOME OF FASHION

MEN! - HERE'S YOUR HAT - WHAT'S YOUR HURRY?

## A STRAW HAT

That fits comfortably, is becoming as well as stylish, and gives you a season of good service, is often hard to find.

Our hats were designed to meet every requirement. In quality, style, variety, fine workmanship and distinctive good taste you'll find no better. Come in and try on a becoming shape.

## E. V. HOFFMAN

MAIN STREET GRIMSBY

## Power To Burn

You want a bicycle full of "pep"—"dash"—"go." And you get it in the

## C. C. M. "CLEVELAND"

The C. C. M. Triplex Hanger makes the C. C. M. run so smooth and easy you'd almost think you were riding down grade. Every ounce of effort you put on the pedals counts for speed.

Step in and see the new models.

We know the bicycle business from A to Z.

## Farrell's Shoe Store

Bicycle Accessories of all kinds always on hand.
